

BODET Scorepad

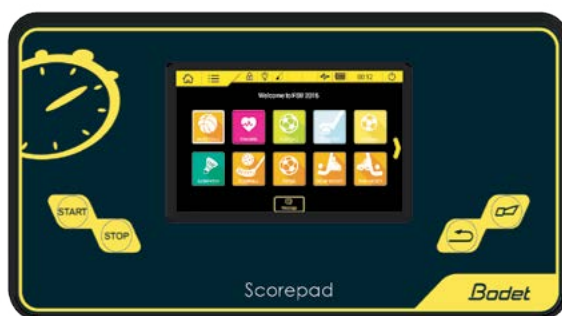

Customizable and scalable, the Scorepad guarantees the scoring display of a large variety of sports:

INDOOR SPORTS

COMBAT SPORTS

SPECIFIC MODES

OUTDOOR SPORTS

General presentation

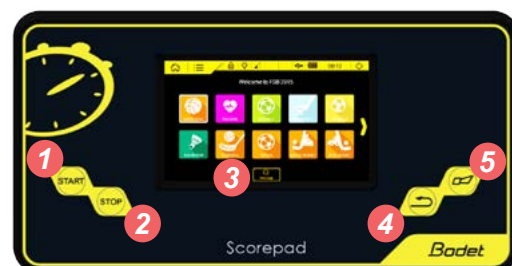

- The Scorepad touchscreen keyboard is suitable for use in all sports halls and outdoors.
- Its 7-inch touchscreen can be used to configure display and buttons for each sport by customising functions and team colours.
- Text can be entered for team names, player names and messages.
- Its connectivity includes network, USB and HDMI functionality, as well as functions specific to each sport.
- Sports updates, saved configurations and settings are easily accessible via the USB port.
- The display of results is sent to scoreboards and video screens. The keyboard also has an HDMI output which can be used to show the sport in question directly on a TV screen.
- Wired or HF Radio communication with the scoreboards.
- HF Radio communication also allows keyboard mobility, with standalone operation using a battery.
- HDMI output resolution : 1 280 × 720 pixels (720p).

Communication

- **Scoreboard**..... HF radio and/or wire communication.
- **Video and other display**..... HDMI and network communication.

Button functions

- 1 • Start button: used to launch game clock.
- 2 • Stop button: used to stop game clock.
- 3 • 7" LCD touchscreen: used to configure all sports displays.
- 4 • Correction button: used to correct previous action.
- 5 • Horn button: sounds or stops horn immediately.
