***MELODYS***

Sounder Systems

Designed to replace old bell systems, Melodys sounders are used for broadcasting melodies and alerts in schools and factories.

## COMMON CHARACTERISTICS

- Stores up to 16 melodies or messages
- File format: MP3
- Customisation of sounder melodies via an SD Card.
- Integrated amplifier with volume control
- Power supply: 100 ~ 240VAC - 50/60Hz or 24VDC

## DHF WIRELESS TECHNOLOGY

- Quick and easy installation
- Economical installation  
*(no cabling required).*

## SOUNDERS AND MELODYS FLASH

Melodys sounders are controlled by a master clock via wireless (DHF technology) or wired networks.

For noisy environments as well as schools with hearing-impaired students, Bodet proposes the Melodys Flash light-equipped sounder.

The device emits flashes of light to match the rhythm of the Melodys sounders' bells.

## LOCKDOWN MESSAGE ALERT BROADCASTING

In case of an emergency, it is important to inform students and teachers about how to respond. There are several types of emergency, and each emergency corresponds to several actions. In order to make understanding easier for all, we recommend using two-phase communications:

### 1. Give an initial instruction that is simple and clear via your alert system:

- Take cover (storm, toxic cloud, etc.)
- Evacuate the building (forest fire, etc.)
- Seek high ground (dam failure, flood, etc.)
- Escape/hide (attack, intrusion, etc.)

### 2. Give detailed instructions once everybody has assembled.

## TRIGGERING MESSAGES AND ALERTS

Bodet proposes several solutions for manually or remotely activating messages and alerts at your establishment: Lockdown Alert System box, Lora remote control and GSM control.

### MELODYS Box

The Lockdown Alert System box allows you to sound and stop broadcasting alerts via 2 push buttons.

### Lora Remote Control

The remote control activates the Lockdown Alert System wherever you may be in your establishment.

### GSM Control

From your mobile or landline, activate the Lockdown Alert System.

## THE ADVANTAGES OF MELODYS

- **Major cost savings:** economical installation thanks to its wireless system.
- **Unlimited number of sounders across your entire establishment.**
- **Customisable bells per sounder.**
- **Diverse activation modes for the Lockdown Alert System:** control box, remote control, mobile phone.
